

## Czech Nymphing Masterclass with Jiří Klíma 2010

If you would like to improve your fishing skills, swap fly-tying techniques with other tiers, visit the best fisheries in beautiful South Bohemia and make new friendships with fellow fly-fishermen from other countries all over the World as well as enjoy a few days of chilled out fishing then sign up for the 2010 Czech Nymphing Masterclass with Jiří Klíma.

The idea of a Masterclass was first established by keen Dutch fly-fishermen Robert Borrenbergs in 2003. Jiří Klíma has been "The Master" since 2005. During its first four years the Masterclass was located on the River Kamenice in North Bohemia. Since 2007 it has been held in South Bohemia in the historical town of Rožmberk nad Vltavou.

Jiří Klíma is one of the best fly-fishermen in Czech Republic. He was the Coach and Captain of the highly successful Czech National Fly-Fishing team from 1993 to 2008. He is the Master of the Czech Nymphing Style, which has brought many medals for the Czech Team in the European and World Fly Fishing Championships. Jiri is a very patient teacher and also produces his special fly-tying materials, which you can buy during Masterclass.

The Masterclass is well-organised and fly fishers from all over the world have taken part, we can mention people from England, Ireland, USA, Germany, Netherlands, Finland, Japan, Scotland, Canada, Belgium and Australia.

The Masterclass is mainly aimed at different types of nymphing techniques in large and small rivers. However with our other experienced guides you can also try streamer fishing, fly fishing with wet flies and sedge pupas, dry fly fishing during the evening hatch of sedges and also dry fly fishing with olives in smaller rivers. Every evening we have a fly-tying workshop.

You will fish on the rivers where the World Fly-Fishing Championship in 1996 and the Youth World Fly-Fishing Championship in 2004 were held.

Fisheries Vltava 27 and Vltava 28 are large river venues and are famous for their high density of natural Brown Trout and stocked Rainbow Trout of a good size.

Fishery Vltava 29P is a very beautiful piece of natural countryside located in the pristine valley of the Vltava river just under Lipno Reservoir. The river is characterised by large boulders and hefty native population of Brown Trout. The upper section is the Trophy Water with big Brownies and it is also stocked with large Brook Trout.

Fisheries Vltava 33 and Vltava 34 are located above Lipno Reservoir in Šumava National Park and has some of the best Grayling fisheries in Czech Republic.

Fisheries Malše 4 and Malše 5 are located on the beautiful native Malše river flowing through a wooded valley and hosting good native populations of Grayling and Brown Trout.

The advantage of locating the Masterclass in South Bohemia is the wide range of different types of rivers and also the certainty of good fishing conditions guaranteed by Lipno Reservoir from which the Vltava River flows.

Description of all the fisheries above including maps and pictures can be found at the website [www.crs.cz](http://www.crs.cz)

If you are interested in attending the next Czech Nymphing Masterclass, look on the special website [www.czechnymphing.com](http://www.czechnymphing.com) for more information.
